

Power Saving Induction Copper Melting Furnace Quick Reliable Safety 9000KW

Our Product Introduction

for more products please visit us on melt-furnaces.com

Basic Information

- Place of Origin: China
- Brand Name: Huarui
- Certification: patent; national testing report; quality management system
- Model Number: to be customized
- Minimum Order Quantity: 1
- Price: to be negotiated
- Packaging Details: waterproof
- Delivery Time: 30~45 days
- Payment Terms: T/T/ L/C
- Supply Ability: 1000000

Product Specification

- Safety System: Quick And Reliable
- Efficiency: High
- Advantage: High Power Saving
- Durability: High
- Reliability: High
- Noise: Low
- Noise Level: Low
- Highlight: **Copper Melting Furnace Power Saving,
Copper Melting Furnace 9000KW**

Product Description

Product Description:

Why induction melting furnace is quickly applied by casting factories? Because the old types of melting furnaces such as fuel furnace or electric furnace have some shortages , for example, large body, high energy consumption, slow melting speed etc..

Based on our own technology with our patent researched and developed by us for many years, our product keeps at the leading level in casting industry.

Our induction copper melting furnace is built with the highest quality components, and is designed to provide a safe and reliable solution for copper melting. It is easy to operate and maintain, and is capable of reaching temperatures up to 2000°C. With its high efficiency and low running costs, the furnace provides an affordable and reliable solution for copper melting.

Features:

Product Name: Copper Melting Furnace

Reliability: High

Noise: Low

Safety System: Quick and Reliable

Efficiency: High

Noise Level: Low

Melting speed: quick

Durability: high

Technical Parameters:

Induction melting furnace power supply, thyristor type serial-connected resonance medium frequency type, (20 tons), as for other data of other capacity (tons), please check other pages in our this website.

Characteristic	Description
Type	GW20-9000-0.3S
Rated capacity (T)	20
Rated power (KW)	9000
rated frequency (HZ)	300
power supply (V)	950x4
inlet current (A)	1361x4
medium frequency voltage (V)	2800
load type	One power supply cabinet drives one induction furnace
adapted transformer (KVA)	10000

Applications:

It is widely applied in casting industry for melting many kinds of metal , for example, copper, zinc, steel, iron, aluminum.....

Support and Services:

Copper Melting Furnace Technical Support and Service

We provide a comprehensive technical support and service package for Copper Melting Furnaces. Our technical support and services include:

Troubleshooting and technical support for furnace installation and operation.
Online technical support.
On-site technical support and maintenance.
Providing spare parts and replacement parts.
Providing technical advice and guidance.
Providing training and instruction to furnace operators.

Packing and Shipping:

Packaging and Shipping

Copper Melting Furnace will be packed in a wooden box with foam cushioning to ensure its safety during transportation. The box size will be measured according to the size of the machine. After the package is completed, it will be sealed and sent to the designated address.
