

## Low Noise High Power Saving Steel Melting Furnace

### Our Product Introduction

for more products please visit us on [melt-furnaces.com](http://melt-furnaces.com)

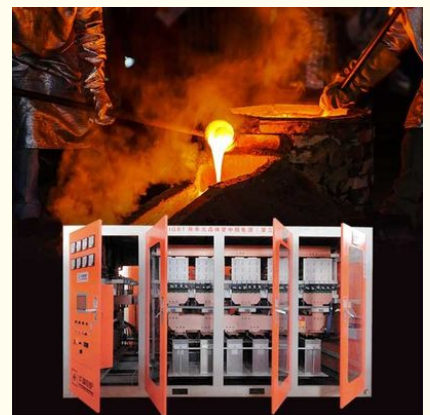

#### Basic Information

- Place of Origin: China
- Brand Name: Huarui
- Certification: patent : national testing report; quality management system
- Model Number: to be customized
- Minimum Order Quantity: 1
- Price: to be negotiated
- Packaging Details: water proof
- Delivery Time: 30~45 days
- Payment Terms: T/T; L/C
- Supply Ability: 1000000 sets

#### Product Specification

- Failure: Low
- Maintenance: Low
- Durability: High
- Noise: Low
- Safety: Complete And Reliable
- Melting Speed: Quick
- Advantage: High Power Saving
- Highlight: **Low Noise Steel Melting Furnace,  
Steel Melting Furnace customized**

## Product Description

### Product Description:

Steel Melting Furnace is an electric induction furnace for melting steel that offers low maintenance, low failure rate, high durability, quick melting speed and high power saving. Its induction melting technology provides precise control over the melting process, ensuring steel products with high quality is consistently produced. The high power saving advantage of this furnace means a great benefit for steel melting process as it can reduce energy cost significantly. With its advanced induction melting technology, this furnace is capable of melting steel quickly and efficiently in a safe and controlled environment. Moreover, its low-maintenance and high-durability features make it an ideal choice for steel melting applications.

### Features:

**Steel Melting Furnace:** Maintenance - Low, Failure - Low, Noise - Low, Advantage - High Power Saving, Safety - Complete and Reliable

**Melting Furnace for Steel:** Maintenance - Low, Failure - Low, Noise - Low, Advantage - High Power Saving, Safety - Complete and Reliable

**Induction Furnace for Melting Steel:** Maintenance - Low, Failure - Low, Noise - Low, Advantage - High Power Saving, Safety - Complete and Reliable

### Technical Parameters:

| Property      | Description           |
|---------------|-----------------------|
| Durability    | High                  |
| Safety        | Complete and reliable |
| Noise         | Low                   |
| Advantage     | High power saving     |
| Maintenance   | Low                   |
| Failure       | Low                   |
| Melting Speed | Quick                 |

### Applications:

Huarui induction furnace for melting steel with model to be customized is a product from China that is certified with a patent, national testing report and a quality management system. The minimum order quantity is 1 and the price is negotiable. It is packed with waterproof material to ensure safe delivery, and the delivery time is 30~45 days. The payment terms are T/T and L/C. The supply ability is 1000000 sets. It is designed with low noise, complete and reliable safety, quick melting speed, and low failure rate. The power saving of the steel melting furnace is high.

The Huarui steel melting furnace has a number of advantages. It has low noise and complete and reliable safety, and has a quick melting speed and low failure rate. It is also designed for high power saving. The electric induction furnace for melting steel is certified with a patent, national testing report, and a quality management system. The minimum order quantity is 1 and the price is negotiable. The delivery time is 30~45 days and the payment terms are T/T and L/C.

Huarui steel melting furnace is the perfect choice for those who need quick melting speed, high power saving, and complete and reliable safety. The product is certified with a patent, national testing report, and a quality management system, and the minimum order quantity is 1. The price is negotiable and the delivery time is 30~45 days. The payment terms are T/T and L/C.

### Customization:

We provide customized steel melting furnace services for Huarui brand induction melting furnace for steel. Our melting furnace is equipped with national testing report, quality management system and water proof packaging. The melting speed is quick, the maintenance is low, the durability is high, the noise is low, and the failure is low. The minimum order quantity is 1, the price is to be negotiated, and the delivery time is 30-45 days. We accept payment of T/T and L/C, and have the ability to supply up to 1 million sets per year.

### Support and Services:

Steel Melting Furnace Technical Support and Service

We provide world-class technical support and service for our Steel Melting Furnace. Our team of experienced engineers and technicians can provide you with on-site support and maintenance services for your furnace.

Our service includes routine maintenance, troubleshooting and repair services, as well as spare parts and accessories. We can also provide you with on-site training for your operators and maintenance staff.

We are committed to providing you with the highest quality service and support. Contact us today to learn more about our Steel Melting Furnace technical support and service.
