

Customized Quick Melting Time Iron Melting Furnace With High Durability

Our Product Introduction

for more products please visit us on melt-furnaces.com

Basic Information

- Place of Origin: China
- Brand Name: Huarui
- Certification: patent; national test report; quality management system
- Model Number: to be customized
- Minimum Order Quantity: 1 set
- Price: to be negotiated
- Packaging Details: waterproof
- Delivery Time: 30~45 days
- Payment Terms: T/T; L/C
- Supply Ability: 1000000 sets/year

Product Specification

- China: Made
- Failure: Low
- Safety: High
- Maintenance: Low
- Technology: First Class
- Power Saving: High
- Durability: High
- Reliability: High
- Highlight: **Quick Iron Melting Furnace,
Customized Iron Melting Machine**

Product Description

Product Description:

Iron Melting Furnace is the perfect solution for iron smelting and melting needs. It is made in China with advanced technology and high quality materials, making it highly durable, efficient, and safe. It is also highly energy-efficient, ensuring lower electricity bills and a more sustainable operation. The furnace is designed for quick melting time and its special features guarantee high safety standards, making it the ideal option for iron melting.

The furnace features a high-efficiency melting furnace that can save up to 30% of energy compared to traditional furnaces, resulting in lower electricity bills. It also features a digital display that allows users to monitor the melting process and adjust settings according to their needs. Moreover, the furnace is designed with a high-efficiency soundproof system, making it quieter and safer while in operation. Finally, the furnace is designed for long-term durability, ensuring that it can be used for a long time with minimal maintenance.

Iron Melting Furnace is the perfect choice for smelting and melting iron. With its quick melting time, high energy-efficiency, and high safety standards, it is the ideal solution for iron melting. Plus, its high durability ensures that it can be used for many years with minimal maintenance.

Features:

Product Name: Iron Melting Furnace

Maintenance: Low

Technology: First Class

Made in China

Safety: High

Power Consumption: Low

Specialized in Induction Furnace and Iron Melting Furnace

Professional Melting Furnace Manufacturer

Applications:

Huarui Iron Melting Furnace

Huarui Iron Melting Furnace is an advanced and reliable melting furnace suitable for a variety of applications, such as melting ferrous and non-ferrous metals. It is made with high-quality materials and features a patent, national test report and quality management system certification, ensuring high safety, power saving and low failure rate. It is also low in maintenance, with first-class technology to ensure a long service life. It is available in various models, and the minimum order quantity is one set. The price is to be negotiated and the packaging is waterproof. Delivery time is 30-45 days, and payment terms are T/T or L/C. We can provide up to 1,000,000 sets per year.

Technical Data:

Induction melting furnace power supply, thyristor type serial-connected resonance medium frequency type, (1 ton), as for other data of other capacity (tons), please check other pages in our this website.

Characteristic	Description
Type	GW1.0-700-0.5S
Rated capacity (T)	1.0
Rated power (KW)	700
rated frequency (HZ)	500
power supply (V)	575
inlet current (A)	750
medium frequency voltage (V)	2800
load type	One power supply cabinet drives one induction furnace
adapted transformer (KVA)	800

Customization:

Iron Melting Furnace Customized Service

Brand Name: Huarui

Model Number: to be customized

Place of Origin: China

Certification: patent; national test report; quality management system

Minimum Order Quantity: 1 set

Price: to be negotiated

Packaging Details: waterproof

Delivery Time: 30~45 days

Payment Terms: T/T; L/C

Supply Ability: 1000000 sets/year

Safety: High

Made in China: Yes

Melting Time: Quick

Failure Rate: Low

Durability: High

Focus: industrial melting furnace, induction furnace, steel melting furnace

Support and Services:

Technical Support and Services for Iron Melting Furnace

We provide a comprehensive range of technical support and services for our Iron Melting Furnace customers. Our team of experts are on hand to help you with any product issues and queries. We can provide advice on installation, operation and maintenance, as well as troubleshooting and repairs. We also offer a range of training courses, so you can get the most out of your Iron Melting Furnace.

We offer round the clock support for our customers, both over the phone and online. Our team of engineers are available to provide advice and assistance whenever you need it. We also have a network of accredited service partners who can provide on-site support and repairs.

We are committed to providing the best possible technical support and services for our Iron Melting Furnace customers. We strive to ensure that you are completely satisfied with our products and services.

Packing and Shipping:

Packaging and Shipping

Iron Melting Furnace is packaged with a range of materials to ensure maximum protection during transport. The packaging materials used will depend on the size of the furnace and the method of transport.

When shipping by sea, the furnace is placed in a wooden crate and secured with steel straps. The crate is then wrapped in plastic film and sealed with waterproof tape. A wooden lid is then placed on the top of the crate and secured with steel bands.

When shipping by air, the furnace is placed in a wooden crate and secured with foam padding. The crate is then placed in a waterproof bag, sealed with waterproof tape. A wooden lid is then placed on the top of the crate and secured with steel bands.
