

First Class Aluminum Melting Furnace With Complete Safety System For Quick And Reliable Melting

Our Product Introduction

for more products please visit us on melt-furnaces.com

Basic Information

- Place of Origin: China
- Brand Name: Huarui Furnace
- Certification: Patent ; national testing report; quality management system
- Model Number: customized
- Minimum Order Quantity: 5
- Price: to be negotiated
- Packaging Details: waterproof
- Delivery Time: 30~45 days
- Payment Terms: T/T; L/C
- Supply Ability: 100,000 sets/ day

Product Specification

- Durability : High
- Quality : First Class
- Advantage : High Power Saving; Quick Melting Speed ; High Reliability
- Power Supply : Medium Frequency
- Maintenance : Low
- Safety System : Complete And Reliable
- Highlight: **Reliable Aluminum Melting Furnace,
Quick Aluminum Melting Furnace,
Complete Safety System Aluminum Melting
Furnace**

Product Description

Product Description:

The Aluminum Melting Furnace is a high power saving product which can save up to 30% of energy when compared to traditional furnaces. It has a quick melting speed which can melt aluminum in just a few minutes. The furnace has a high reliability factor as it is equipped with a complete and reliable safety system that ensures safe operation.

The Aluminum Melting Furnace is a low maintenance product which requires minimum maintenance. It is a perfect melting furnace for aluminum as it can melt aluminum at a temperature of up to 800°C. The furnace is equipped with a medium frequency power supply which ensures efficient and effective melting of aluminum.

This melting furnace for aluminum is designed with high-quality materials that ensure it can operate at high temperatures without any damage. The furnace is made of high-quality materials that provide excellent resistance to wear and tear. This ensures that the furnace has a long lifespan, making it a cost-effective investment for businesses.

The medium induction melting furnace is a highly efficient product that can melt aluminum quickly and efficiently. It is a perfect product for businesses that require a reliable, efficient, and cost-effective melting furnace for aluminum. The furnace is easy to operate and can be controlled using a simple interface.

In conclusion, the Aluminum Melting Furnace is a highly durable, efficient, and reliable product that is perfect for melting aluminum. It is a cost-effective investment for businesses that require a melting furnace for aluminum. The furnace has a high power-saving factor, quick melting speed, and high reliability, making it a perfect product for businesses that require a reliable and efficient melting furnace for aluminum.

Applications:

The following are some of the product application occasions and scenarios for our induction melting furnace for aluminum:

Automotive industry: Our aluminum melting furnace is ideal for melting aluminum scrap and turning it into high-quality aluminum ingots that are used in the production of automotive parts.

Aerospace industry: Our induction melting furnace is perfect for melting aluminum alloys used in the production of aircraft parts. The high reliability and durability of our furnace ensure that the aluminum is melted quickly and efficiently, meeting the high standards of the aerospace industry.

Metalworking industry: Our aluminum melting furnace is widely used in the metalworking industry for melting aluminum scrap and turning it into aluminum ingots. The high power saving and quick melting speed of our furnace make it a popular choice for metalworking companies looking to increase their productivity and efficiency.

Foundries: Our induction melting furnace for aluminum is commonly used in foundries for melting aluminum and other non-ferrous metals. The complete and reliable safety system of our furnace ensures that the melting process is safe and secure for workers.

Our induction melting furnace for aluminum is certified with patents, national testing reports, and quality management systems, ensuring that our customers receive high-quality and reliable products. Our minimum order quantity is 5, and the price is negotiable based on the order quantity. We offer waterproof packaging to ensure that your furnace arrives in good condition. The delivery time is 30-45 days, and we accept payment terms of T/T and L/C. Our supply ability is 100,000 sets/day, ensuring that we can meet the needs of customers in various industries.

Our aluminum melting furnace requires low maintenance and has a complete and reliable safety system. The high durability of our furnace ensures that it can withstand continuous use in various applications. The high power saving and quick melting speed of our furnace provide an advantage to our customers, ensuring that they can increase their productivity and efficiency while reducing their energy costs. Our induction melting furnace for aluminum runs on medium frequency power supply, ensuring that it is energy efficient and cost-effective.

Support and Services:

- Installation guidance and support
- Troubleshooting and problem-solving assistance
- Regular maintenance and repair services
- Technical training and education for operators and maintenance personnel
- Spare parts and component replacement
- Upgrades and modifications to improve performance and efficiency

Packing and Shipping:

Product Packaging:

Aluminum Melting Furnace unit

Thermal insulation cover

User manual

Shipping:

Ships within 2-3 business days

Standard shipping via ground

Shipping weight: 50 lbs

Shipping dimensions: 24" x 24" x 24"

FAQ:

Q1: What is the brand name of the Aluminum Melting Furnace?

A1: The brand name of the Aluminum Melting Furnace is Huarui Furnace.

Q2: What is the minimum order quantity for the Aluminum Melting Furnace?

A2: The minimum order quantity for the Aluminum Melting Furnace is 5.

Q3: What certifications does the Aluminum Melting Furnace have?

A3: The Aluminum Melting Furnace has Patent, National Testing Report, and Quality Management System certifications.

Q4: What is the delivery time for the Aluminum Melting Furnace?

A4: The delivery time for the Aluminum Melting Furnace is 30 to 45 days.

Q5: What are the payment terms for the Aluminum Melting Furnace?

A5: The payment terms for the Aluminum Melting Furnace are T/T and L/C. The price is to be negotiated and the packaging details are waterproof. The supply ability is 100,0000 sets per day.
